Arcitecta to Participate in International Data Week and eResearch Australasia 2025 in Brisbane

MELBOURNE, Australia – October 10, 2025 – [Arcitecta](#), a creative and innovative data management software company, will participate in two landmark conferences — International Data Week (13–16 October) and eResearch Australasia (20–24 October), showcasing how partnerships with Wasabi and IBM are enabling data for positive change.

International Data Week (13–16 October)

See how Arcitecta and Wasabi are transforming research data management. Together, Arcitecta Mediaflux and Wasabi Hot Cloud Storage deliver:

- **Seamless Cloud Tiering:** Move data to Wasabi’s affordable hot cloud storage without losing visibility or accessibility.
- **Scalability and Control:** Mediaflux orchestrates data intelligently across hybrid environments.
- **Optimised Costs:** Reduce storage spend while maintaining performance

For more information, visit: <https://www.arcitecta.com/events/2025/international-data-week/>

eResearch Australasia (20–24 October)

Join Arcitecta at the IBM booth to explore scalable, secure and intelligent data management for the artificial intelligence (AI) era. Together, IBM Deep Archive on IBM Diamondback and Arcitecta’s Mediaflux deliver a future-proof solution for organisations managing exponential data growth, from AI/ML pipelines to life sciences and media production.

Featured presentations include:

- **IBM Storage Scale TechXchange Workshop: Arcitecta Mediaflux (Princeton University)**
Monday, 20 October 2025, 12:00 – 12:30 p.m., Plaza P8, Brisbane Convention & Exhibition Centre.

Highlights include:

- Driving data insights: How Mediaflux powers Princeton University’s RDM transformation with Tiger Data.
 - Product updates on **IBM Storage Scale** and **IBM Fusion/Fusion HCI**.
 - Client and partner presentations on large-scale data management.
- **Panel Session: Building a Data Discoverability Reference Architecture**
Wednesday, 22 October 2025, 11:00 – 11:20 a.m., Boulevard B3, Brisbane Convention & Exhibition Centre.

This interactive discussion will include:

- How to define and classify research data tailored to organisational needs.
 - Best practices for operational, security and user-driven frameworks.
- **Birds of a Feather: Storage & Data Protection for Long-Term Archiving**
Confirmed contributors include Arcitecta, IBM, Pawsey, Spectra Logic and Versity.
Wednesday, 22 October 2025, 11:40 a.m. – 12:40 p.m., Boulevard B3, Brisbane Convention & Exhibition Centre.

This session will explore:

- Implicit vs. explicit archive architectures.
- Long-term data viability (formats, migration paths).
- Protocols, interfaces and ecosystems.
- Hardware technologies and future readiness.

About Arcitecta

Arcitecta has been building the industry's best data management platforms since the dawn of the data age. Today, Arcitecta is transforming data management and backup with [Mediaflux](#), a rich end-to-end data fabric that simplifies data-intensive workflows in petabyte-scale environments to improve business and research outcomes. Mediaflux unifies data management processes into a single platform, simplifying the administration of massive data sets and allowing world leaders to solve some of the most challenging problems on the planet.
