MEDIAFLUX®

MADE BY ARCITECTA®

INCREASE THE IMPACT OF RESEARCH DATA WITH A SMARTER, MORE FLEXIBLE DATA MANAGEMENT SOLUTION THAT ADAPTS TO THE MOST DEMANDING ENVIRONMENTS.

Mediaflux Research Data Management platform makes it easy to get a complete view of all disparate data available and expose the right information at the right time, to support effective research data management.

CUSTOMISATION, COMPLIANCE, COLLABORATION AND COMMERCIALISATION WITH THE MEDIAFLUX RESEARCH DATA MANAGEMENT PLATFORM

To researchers, Mediaflux operates below the surface to transparently support and simplify their work, using their own well known tools, so they can focus on science, instead of data management.

CUSTOMISE

Configure the platform to solve different use cases or a bespoke solution can be created to meet unique business systems and infrastructure.

COMPLIANCE

Effectively manage how data will be collected, formatted, described, stored and shared throughout, and beyond, the project life cycle.

COLLABORATION

Access 'open innovation' with companies, investors and researchers on a single transparent platform.

COMMERCIALISATION

Translating research into commercial success more quickly, easily, profitably by shortening study timelines and decreasing costs.
